

You're Wasting Your Money On Photographs

Unless they are permanent. No photographer knows whether his pictures will "keep" or not, if he himself is not familiar with the fundamental principles of the science of photography. Ask him to explain this to you. If he cannot, you may depend upon it that he is an amateur in the experimental stage, and that you are paying for his education.

We have been making and framing photographs for nearly thirty years. Our work bears our imprint and is backed by our guarantee.

Dear Sir:—

I have your favor of 20th inst. and take great pleasure in saying that the album containing two hundred views thus far taken along the Key West Extension of the F.E.C.Ry. has given me entire satisfaction, and I wish to compliment you upon the character of the work. This album with the one to follow will make a very interesting souvenir of the construction. It is a pleasure to know that Florida has been so beneficial to your health, and that success has attended your business efforts. With every good wish, I am,

Yours very truly,

Be a Booster.

Want to be a booster
And with the boosters stand;
A booster's button on my coat
And a horn within my hand.
The Boosters' Club 's all the go
And I'm a member too;
The list is growing rapidly,
And, by jeminy, they're all true.
The knocker's day is past and gone,
His hammer now is stilled;
His head is swathed in bandages
And the critter's almost killed.
His occupation is fading away
And he can't survive the shock.
Dad blame his 'onery hide,
He hadn't oughter knock.
Don't hang back and sulk along;
This is not the time to shirk.
Shed your coat, roll up your sleeves
And join right in the work.
Whoop'er up—let's hear you crow
Just like a Shanghai rooster.
That's the way—make a noise—
Show the world you're a booster.
—A. B. (BOOSTER) BROWN.
